Totally 20 students have enrolled for the course. Mr.M.BALAJI AP/CIVIL Coordinated the course.

After getting approval from HOD/CIVIL and Principal of kings college of engineering, the syllabus of value added course construction technology was approved from the director, center for academic courses, Anna university, Chennai with the course code CAV001. 2 credits are assigned to the value added course by the Anna University. The course commences on 18.08.2021 and ends on 30.11.2021. The course was successfully completed for the batch 2019-2023.

SESSION DETAILS

VAC session was handled by Mr. M.BALAJI AP/CIVIL, he discussed about the process of finding an estimate, or approximation, which is a value that is usable for some purpose even if input data may be incomplete, uncertain, or unstable. The value is nonetheless usable because it is derived from the best information available.

He also explained the overall planning, coordination, and control of a construction process from the start to the end. The objectives of project management are to produce a project that meets client requirements on budget and schedule, and at acceptable risk, quality, and safety. He also discussed about the

- ❖ Basic measurements and SI units
- ❖ Building planning and its specification.
- ❖ Quantity and Quality of Building materials
- ❖ Estimation and costing.

UNIVERSAL HUMAN VALUES

Students would get an initial exposure to human values through Universal Human Values – I.

OBJECTIVE:

The objective of the course is four fold:

1. Development of a holistic perspective based on self-exploration about themselves (human being), family, society and nature/existence.
2. Understanding (or developing clarity) of the harmony in the human being, family, society and nature/existence

COURSE TOPICS:

The course has 30 hrs lectures in one module:

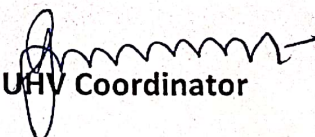

Course Introduction - Need, Basic Guidelines, Content and Process for Value Education

1. Purpose and motivation for the course, recapitulation from Universal Human Values-I
2. Self-Exploration-what is it? - Its content and process; 'Natural Acceptance' and Experiential Validation- as the process for self-exploration
3. Continuous Happiness and Prosperity- A look at basic Human Aspirations
4. Right understanding, Relationship and Physical Facility- the basic requirements for fulfillment of aspirations of every human being with their correct priority
5. Understanding Happiness and Prosperity correctly- A critical appraisal of the current scenario
6. Method to fulfill the above human aspirations: understanding and living in harmony at various levels.
7. Understanding the needs of Self ('I') and 'Body' - happiness and physical facility
8. Understanding the Body as an instrument of 'I' (I being the doer, seer and enjoyer)
9. Understanding the characteristics and activities of 'I' and harmony in 'I'
10. Understanding the harmony of I with the Body: Sanyam and Health; correct appraisal of Physical needs, meaning of Prosperity in detail
11. Programs to ensure Sanyam and Health.
12. Understanding the meaning of Trust; Difference between intention and competence
13. Understanding the harmony in the society (society being an extension of family)

OUTCOME OF THE COURSE

By the end of the course, students are expected to become more aware of themselves, and their surroundings (family, society, nature); they would become more responsible in life, and in handling problems with sustainable solutions, while keeping human relationships and human nature in mind.

They would have better critical ability, also become sensitive to their commitment towards what they have understood (human values, human relationship and human society). It is hoped that they would be able to apply what they have learnt to their own self in different day-to-day settings in real life, at least a beginning would be made in this direction.
