ONE DAY WORKSHOP ON "COLUMN MARKING & TOTAL STATION" - For Diploma Students

Venue: CHERA HALL, Kings College of Engineering Date: 06.03.2020

BACKGROUND & OBJECTIVE

Department of Civil Engineering, Kings College of Engineering organised a One day workshop on "COLUMN MARKING & TOTAL STATION" for diploma civil students on 06.03.2020. An overwhelming response was received from the polytechnic colleges and students showed tremendous interest to attend the workshop. The main aim of the workshop was to bring the diploma students to our college campus, so that they can get hands-on training in Total Station.

INAUGURAL SESSION

Mr.S.R.Elwin Guru Chanth, AP/Civil welcomed the gathering. The workshop was inaugurated by the Vice Principal, Dr.S.Sivakumar. He graced the occasion as chief guest and delivered the inaugural address. In her address, he elucidated the rising technology and various opportunities in civil Engineering field. Vice Principal also briefed the importance of Civil Engineering in various aspects. Finally while concluding, he encouraged the participants to make use of the college infra structure during the practical sessions.

WORKSHOP SESSIONS:-

The Session I was handled by Mr.K.Arun, AP/Civil. He presented about the basic conversions and factors to be known by a Civil Engineering in construction site. He also detailed about measurements, Unit conversions and narrated the diagonal and right angle checking methods using thumb rule. The Session II was handled by Mrs.R.Revathi, HoD/Civil. She presented about the site marking as per the drawing. First she explained the aspects of site marking in white board, and after that she accompanied the participants to the site and handled practical sessions

on site marking. The Session III was handled by Mr.R.Sundharam, AP/Civil. He presented about the Total station and its functions. He briefed about the working principle behind total station and also stated the various uses of total station.

VALEDICTORY SESSION

The valedictory session was conducted in the evening which was graced by the department staff members. The session started with the sparkling feedbacks from the external participants, in which the students gave their valuable feedbacks. Finally the participants were awarded with a certificate as an appreciation of their efforts during the workshop.

OUTCOME:

Students gained knowledge in Column marking & total station and also gave very good feedback at the end of the workshop. Most of the students showed interest to join Engineering. The Participants database was collected in the registration form.

DEPARTMENT OF CIVIL ENGINEERING REPORT – DEPARTMENT PROJECT EXPO'2020

03.06.2020

BACKGROUND & OBJECTIVE:

Department of Civil Engineering, Kings College of Engineering organized the "**Department Project Expo'2020**" for IV year Civil Students on 03.06.2020. The main objective of this project expo is to provide a platform the students to present their 8th semester project work. Mr.K.Arun, AP/civil organized the project expo. Ms.R.Revathi, HoD/Civil & Ms.M.Priya, AP/civil were the Jury members for the project expo.

EXPO DETAILS:

11 batches participated in the Project expo. Students presented about their project through Google Meet. Each batch was given 15 minutes duration to explain their project. A Jury panel comprising of two senior faculty members evaluated the projects and gave feedback & valuable comments to the students. Based on the presentation, PPT content and outcome, marks were awarded by the Jury panel and 2 projects were selected for rewards.

3.03.2021

Department of CSE in association with Multimedia club conducted a webinar on "IOT and AI in Startups" for students and faculties of CSE through online mode (YouTube) on 2.03.2021, with an objective to offer a better understanding of Passion at workplace in startup industry. The session was handled by eminent resource person Mr.S.Ramesh, C.E.O., CIAR Software Solutions, Chennai .About 133 participants joined Webinar through Kings College YouTube channel. Participants from third year and final year students and cse department staff members actively participated in the session and gained inspiration on topic. The event was co-ordinated by Mr.S.Rajarajan AP/CSE, Ms.M.Arun AP/CSE under the guidance of Dr.S.M.Uma, Head of the Department and by the support of our Principal Dr.J.Arputha Vijaya Selvi and the management. The session was completed successfully by the support of our Faculty members of CSE.

The speaker of the session Mr.S.Ramesh presented the Keynote address on "Introduction to Data Science". He discussed the basic concepts used in the technology related with best suitable real world examples which are essential for understanding of the technology. He projected a clear understanding of the importance of IoT and AI problems in real world. He emphasized on business analytics career opportunities in India and global market and gaining practical mastery over application of IoT through a hands on project. Feedback was collected from participants using Google form.

Welcome address and resource person introduction were delivered by Dr.S.M.Uma, HOD / CSE. The session was handled by eminent resource person G.Saravanan, CG Generalist and Senior Lighting Artist, Mirayi Studio, Malaysia. The resource person explained the concept of Computer Graphics using VFX with demonstration in excellent manner. Totally 84 participants registered from MCA,CSE, ECE and Computer Application Departments. About 73 participants including various other college staff members actively participated in this session and gained knowledge in 3D Animation. Vote of thanks was given by Mr.S.Rajarajan, AP/CSE and also he was the host of this webinar. After the session participants gave the feedback through feedback link. E-Certificates were issued to all the participants.

ELECTRONICS CLUB

Introduction

KCE Electronics club is especially targeted for students studying in this college with an interest in Electronics and Communication field. The club's main aim is not only to provide a strong emphasis in Practical Electronics but also to provide fun in learning and to help people understand the seemingly incomprehensible electronic gadgets in the world today. It also assists students in developing their own devices in an innovative way.

Electronics Club Objectives:

- ➤ To bring the students out of their Syllabi bound shells and to expose them in practical field.
- > To explain the concepts of electronics, circuit design and hardware analysis and help them to gain knowledge.
- To provide a platform for the students to complete their innovative ideas.
- ➤ To provide resources and the technical know-how to realize and shape their projects.
- > To expose the students to the latest technological advancements in the field of electronics.
- To organize the program and make a discussion on latest trends of electronics which indeed improve their communication skills of Electronics.
- To organize the exhibition for providing the Electronics Student a platform to show their skills and ideas.

A Glimpse on the Background of Webinar:

Department of Electronics and Communication Engineering, organized a webinar on "THE ROLE OF INTERNET OF THINGS (IOT) IN CURRENT PANDEMIC OF COVID-19" on 27th May 2021, from 03.00 p.m. to 04.00 p.m.

The main objective of this webinar is to provide basic knowledge on the role of internet of things (IoT) in current pandemic circumstances.

Under the guidance of our Principal, Dr. J. Arputha Vijaya Selvi, we hosted this webinar. Mrs. N.Mangaiyarkarasi, HOD/ECE was the convener of our webinar. Mr.W.Newton David Raj, AP/ECE, Mr.J.Niranjan Samuel, JRF/R&D were the program coordinators.

OVERVIEW OF THE WEBINAR:

ABOUT THE RESOURCE PERSON:

The resource person for the webinar was Dr.JOE LOUIS PAUL, Associate Professor, Department of Information and Technology, SSN College of Engineering, Chennai.

ABOUT THE IMPORTANT COMMUNICATION LINK'S

ABOUT THE REGISTRATION PROCESS:

The webinar was organized via Google Meet platform and also live streamed in YouTube channel. The registration link was shared to participants through various WhatsApp groups and Gmail. We received responses from various institutions and also from internal participants. Confirmation mail along with YouTube link was sent to all the registered participants of the webinar.

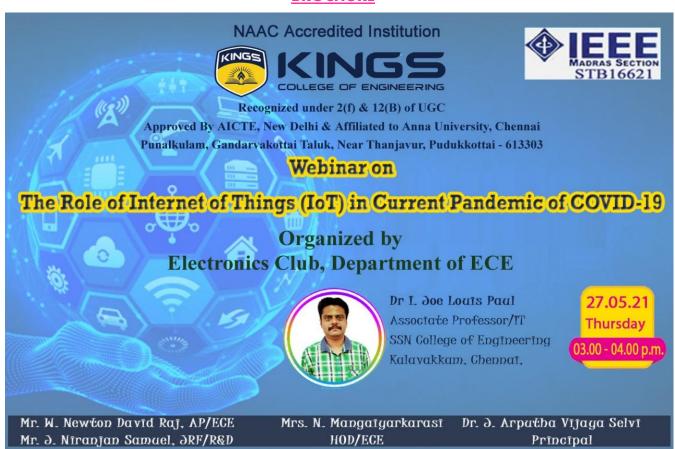

ABOUT THE WEBINAR:

- ✓ The webinar started by 3.00 p.m.
- ✓ Ms.M.Keerthika, Student coordinator, Electronics Club (III ECE) welcomed the resource person and the participants.
- ✓ Mr.W.Newton David Raj, AP/ECE coordinator of the webinar introduced the resource person.
- ✓ Resource person gave very clear explanation on the "THE ROLE OF INTERNET OF THINGS (IOT) IN CURRENT PANDEMIC OF COVID-19 " through the following subtopics:
 - ❖ COVID-19
 - Transmission of COVID-19
 - ❖ Digital Transformation in Health & Social Care.
 - Digital Transformation Roadmap
 - ❖ Artificial Intelligence(AI)-Precision Diagnostics
 - Artificial Intelligence(AI)-Drugs Discovery
 - Block chain Technology-Electronics Health Record(EHR)
 - Block chain Technology-Supply Chain
 - IOT in Remote Health Monitoring
 - Contact Tracking Architecture
 - ❖ Vaccine Distribution-Global Shipping Infrastructure
 - FSAI's Personal Sanitization Solutions
 - FSAI's Support to Fight COVID-19
 - **❖** IOT Perspective
 - IOT & Cloud Based Screening Systems
 - IOT Asset Tracking and Control
 - IOT in Patient Monitoring
- ✓ Finally he gave tips regarding useful certification and non certification courses and also shared the link. The queries posted in the YouTube chat box by the participants were clarified. Feedback link was posted in the chat box. Finally, Ms.G.Latchayasri, Student Vice President, Electronics Club proposed vote of thanks. Programme was coordinated by Mr. J. Niranjan Samuel, JRF/R&D.

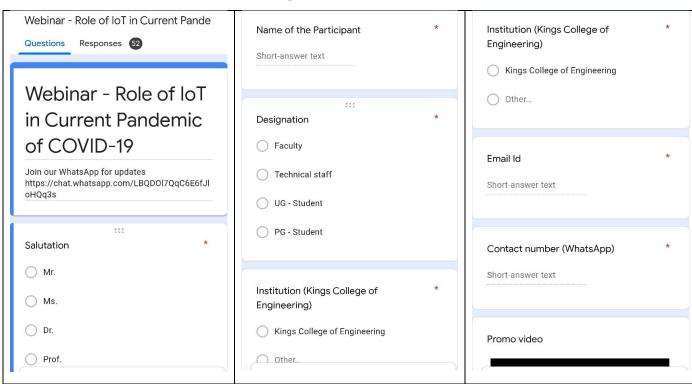

OUTCOME:

- ✓ Paricipants were able to understand building blocks of Internet of Things and characteristics.
- ✓ Webinar provided an overview of Cloud based Screening system, Internet in Mobile Devices & Sensor Networks.
- ✓ Participants also enlighten their mind on Industry 4.0, IIoT smart manufacturing.
- ✓ Project skills of the second and third year students were developed through the webinar. They explored to the interconnection and integration of the physical world and the cyber space. The webinar was a eye opener to design & develop projects/products using IoT in drug delivery and IoT Devices.
- ✓ Through the webinar participants gained knowledge on the role of IOT in handling the COVID drug transit and the monitoring the affected patients .
- ✓ The E-Certificate was provided to all the attendees through their E-mail Id.
- ✓ 99 participants participated and gained knowledge.

In order to improve the technical skills and boost the innovative ideas of students, Department of Electrical & Electronics Engineering has inaugurated a project club. On 23.01.2020, Department of EEE organized the inauguration function with the Chief Guest of Dr.J.Arputha Vijaya Selvi, Principal / KCE and Dr.S.Sivakumar, Vice Principal / KCE.

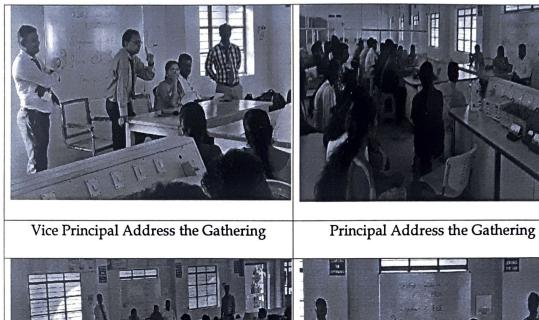

Welcome Address

Faculty members, non teaching staff members and all department students have participated in the inauguration function. 32 students got benefited from this event. 8 students have enrolled their names as project club student member.

Principal Dr.J.Arputha Vijaya Selvi addressed the gathering and motivated the students towards project expo and explained about ELECRAMA (The World Electricity Forum). She pointed out that 2013-17 EEE batch students got selected for ELECRAMA project expo and they won third prize.

Vice Principal Dr.S.Sivakumar addressed the gathering and explained the importance of technical skills and knowledge. He stated that some of the technical information which is not mentioned in the books. He encouraged the students towards the utilization of time and faculty members regarding project club.

Head of the Department Dr.A.Albert Martin Ruban addressed the gathering and motivated the students and announced the student co-ordinators names viz... GANESAN E (Co-ordinator) & JAGADESHWARAN S (Assistant Co-ordinator)

The Project Club, Department of Electrical & Electronics Engineering, Kings College of Engineering organized an Online Quiz on Projects Based Basics of Electrical Engineeringtitled on "KINGS-PBBEE-QUIZ 2021" for Students on 23.02.2021. The main objective of this online quiz is to generate awareness about basics of electrical engineering projects. Mr.J.Arokiaraj AP/EEE & Mr.S.R.Karthikeyan AP/EEE, organized the online quiz under the help of faculty member of EEE department for our department students.

PROGRAMME DETAILS

The online quiz "KINGS-PBBEE-QUIZ 2021" was conducted using the Google link https://forms.gle/QcNVUCV5XKR4y8WY6. Online quiz consisted of 20 Multiple Choice Questions on Projects Based Basics of Electrical Engineering. E-certificates were given to the participants those who secured 60% and above. Around 36 participants attempted the quiz and 28 participants cleared the quiz with a score of 60% and above.

INTERNAL SEMINAR-REPORT

On behalf of Department of EEE, Project club has organized Internal Seminar on "MATLAB in Power Electronics" for second, third year EEE students on 19.03.2021. The main objective of the internal seminar is to provide basic introduction about MATLAB in Power Electronics using Simulink and its applications.

Beneficiaries: Total: 23:(II, III Year Students)

Session: Seventh session (3.10 P.M to 4.00 P.M)

Venue: Electrical Machines Laboratory

Resource Person (Internal): Mr. J. Arokia Raj, Assistant Professor/EEE

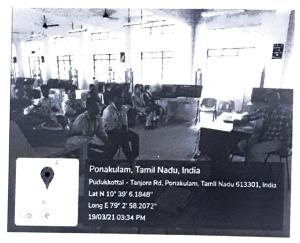

Mr. J. Arokia Raj AP/EEE welcomed all the second and third EEE students. During his session, he started with basic questions about Purpose of Simulation and interaction to all the students. He introduced about the Simulink library and functions of each library tools and its applications. Then he has explained and construct the various important block used for power electronics converters and inverters in MATLAB Simulink files.

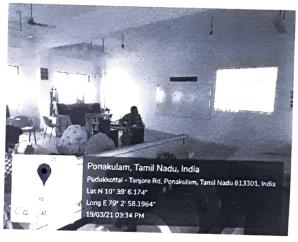

He has briefed about the different types of converters with some example and he shows the operation block setting parameters in MATLAB Simulink library tools. Similarly several types of power inverters were simulated using selectable modeling techniques and its Configurations.

Discussed and configure the following library tools.

- Electrical Sources and Elements.
- Motors and Generators.
- Power Electronics

SNAPSHOTS

INTERNAL SEMINAR-REPORT

Department of EEE has organized Internal Seminar on "Simulation software tools for Electrical Engineering" for second and third year EEE students on 28.2.2020. The main objective of the internal seminar is to provide basic introduction about Software simulation tools to be used for Electrical Engineering Department and provide overview of different Apps in the field of Electrical engineering.

Resource Person:

Mr.R.Sundaramoorthi, Assistant Professor/EEE

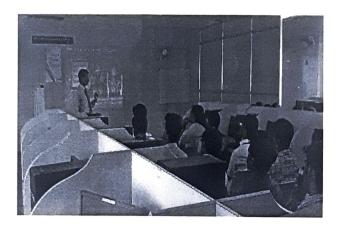

Mr.R.Sundaramoorthi AP/EEE has introduced about the simulation software requirements and importance of Software simulation tools in the field of Electrical Engineering. He also mentioned that different software Applications used in Electrical Engineering and he has briefed about the following different software tools and functions.

- MATLAB (Software for Numerical Computing)
- Simulink (GUI based software for Dynamic System Simulation)
- Pspice (Electrical Schematic Software)
- Multisim (Circuit Simulation & PCB Design Software)
- ETAP (Software for Electrical Power Systems)
- Power World Simulator (Visual power system analysis software)
- PSCAD(Electro Magnetic Transient Analysis software)
- PSS/E(Power system simulator for Engineers)
- Lab view(Designing Interfacing and HMI's)
- Keil U vision

He has given detailed explanation about all the software tools details such as specifications, tool boxes and cost details. At the end of the session, students were

interacted and asked questions about software version, cost of the simulation software tools and how to use in the field of Electrical Engineering problems.

SNAPSHOTS

Mr.R.Sundaramoorthi AP/EEE delivering lecture during Internal Seminar

OUTCOME:

- Students will able to emphasize theoretical knowledge with hands on training using different simulation software tools.
- Software tools are essentially, a program that allows the students to observe a theoretical operation through simulation.
- Simulations will become more immersive and will continue transforming applications in the field of Electrical Engineering.

WEBINAR REPORT

The Department of Mechanical Engineering and Dr. A. P. J Abdul Kalam Memorial Foundation had jointly organized a National level webinar through online mode on "Recent Trends in Automotives" on 10.06.2020 at 11.00 a.m. to 12.30 p.m. Welcome address was given by Dr. P. P. Shantharaman, Professor / Mechanical, Kings College of Engineering.

Resource person Mr. M. Sathish Kumar, Senior System Engineer, Continental Automotives, Singapore, was introduced by Dr. P. P. Shantharaman, Professor/Mechanical, Kings College of Engineering. The resource person had given the lecture on "Recent Trends in Automotives". In his lecture, he explained about the various concepts of current Automotive systems such as Engine Ignition Systems, Types of vehicles (Hybrid, Electric and Gasoline), Automated door opening and closing system, Headlights and its customization and various additional features of current trends.

In this webinar, **343** participants from **153** colleges have registered from various institutions. Among these, **140** participants from various Engineering College, polytechnic college and Arts College have attended the webinar. Vote of thanks was given by **Mr. S. Sabanayagam**, AP/Mechanical. Kings College of Engineering.

All the attended participants gave their feedback after the session and E-certificate have been sent to them through email.

In view of enhancing technical skills and latest innovation in Mechanical Engineering, our department has conducted a seminar program. The first step of achieving our target, we are conducting a Technical seminar event conducted by IV year mechanical students to II year students. The students are attended the seminar session and gave their feedback. The total feedback was found as good. Our department is planning to conduct more number of technical events for the upcoming year.
