

**ISTE STAFF CHAPTER (TN 205)
ACADEMIC YEAR 2023-24(ODD SEMESTER)**

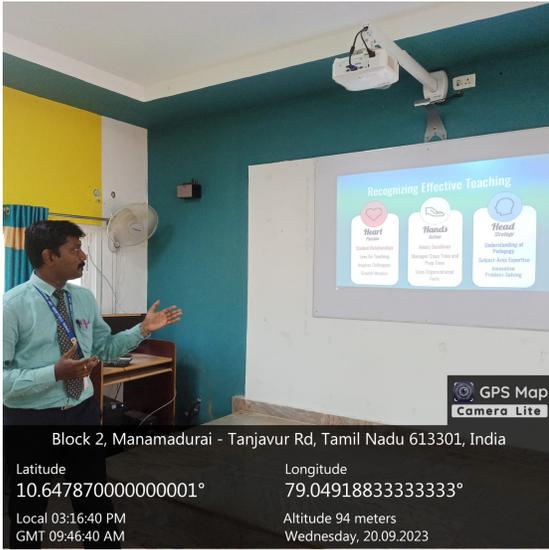

Staff Seminar Report

A one day seminar titled “**Effective Teaching Learning Process**” was organized by ISTE Staff Chapter [TN 205] on **20.09.2023** from 3.00p.m. to 4.00p.m. to the faculty members of Kings College of Engineering with an objective to offer a better understanding of Effective Teaching Learning Process. Welcome address was delivered by **Mrs.T.Gnanajeya**, Coordinator / ISTE Chapter. The session was handled by the resource person **Mr. K. Arun**, Assistant Professor / Department of Civil Engineering.

Teaching and learning process can be defined as a transformation process of knowledge from teachers to students. It is referred as the combination of various elements within the process where an educator identifies and establishes the learning objectives and develops teaching resources and implements the teaching and learning strategy.

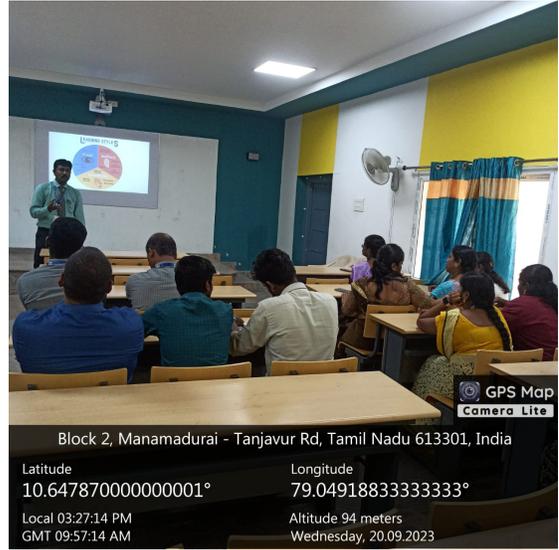

The objective of the seminar is to assess the teaching effectiveness and learning process in a better manner. Effective teaching is the knowledge, strategies, processes and behaviours which lead to good student outcomes. Effective teachers have a positive impact on their students and use their expertise to improve learning. These good outcomes are often those that can be measured easily, usually through summative assessment.

Effective teaching methods are used by a teacher in order to obtain high levels of student achievement. Teaching methods can be teacher centered, student centered, or preferably a mixture of both. The principles of effective teaching are to build relationships, have clear expectations, create deep student engagement, and gain feedback from students and other teachers. There are many innovative and interesting ways of teaching to engage students in learning. Common effective teaching methods are discussed in the seminar in excellent manner. Totally 18 faculty members actively participated in this session and gained knowledge about Effective Teaching Learning Process. Vote of thanks was given by Mrs.T. Gnanajeya, Coordinator / ISTE Chapter.
