National Service Scheme "SIDE EFFECTS OF SELF MEDICATION"

Date & Time: 28.01.2022, 10.00 AM

Online Mode

Report

In align with the ministry of youth affairs and sports, the **National Service Scheme Units** of our campus in association with the Inner wheel club of Thanjavur heritage city jointly organized a programme on "**Side Effects of Self Medication**" for our students on 28.11.2022.

The programme was started with welcome address given by one of our NSS Volunteers. The chief guest Dr.T.Gunalan Anesthesiologist, Critical care & Pain Specialist Thanjavur delivered the thematic presentation on Self-medication. In his address, he defined the selection and use of medicines by individuals to treat self-recognized or self-diagnosed symptoms are lethal. Self-medication increases the access to medicines inaptly that only give a temporary relief and leading majorly to a perennial paralyzing to diseases.' Besides, he advised that 'the better use of physicians and pharmacists consultations will reduce anxiety and the expenditure linked to the treatment of physical issues.' 'With proper medical advice,' he mentioned, 'severe and adverse reactions on the administration of incorrect dosage and choice of therapies can be thwarted.'

Finally, the gathering was thanked by Mr. S. Ambalatharasu, Programme Officer, Unit II.

Dr. T. Gunalan
Anesthesiologist, Critical care & Pain Specialist

Personal Profile

By the time he was 13 years old, Dr. Gunalan had his future figured out. Sports? Engineering? Check. A career in medicine? Double check. Growing up the youngest of two, he found his voice by speaking up. Decades later, his outspoken nature would become his strongest attribute, especially on the topic of patient safety. Keeping the people healthy is his eternal intention. The Passion to treat patients and their illness with complete care and also giving their dedication is the key role of a doctor. Dr. Gunalan understand the stress of suffering from pain and injury and how that impacts the person and their loved ones. And focused his approach in pain management.
